

2019 Literacy Academy **PEER NETWORKING**

WHY PEER NETWORKING?

A key element of [Ohio's Plan to Raise Literacy Achievement](#) is facilitating the networking of educational entities around local literacy plan development and implementation. This allows organizations focused on a similar challenge or problem, or implementing comparable strategies, to consult with each other, share successes, focus areas, and provide real time support for implementation and continuous improvement. Each day of the Literacy Academy will close with a Peer Networking opportunity.

SCHEDULE

Each day of the Literacy Academy closes with a Peer Networking opportunity. The March 18th session occurs from 3:45pm-5:00pm. The March 19th session occurs from 3:15pm-4:30pm. Participants' Certificates of Completion will be available at these sessions.

ASSIGNMENTS

Each organization registered for the 2019 Literacy Academy is assigned a Peer Networking group based on geographical region, typology, children served, or a combination of these factors. Each group is facilitated by State Support Team and Ohio Department of Education staff.

There are 12 networking groups. Group 12 is dedicated specifically to early childhood networking. Any participant, regardless of assignment in this document, is welcome to join the early childhood group.

The below assignments include group number, room assignment, and assigned organizations.

If your organization has not been assigned a networking group or you have other questions regarding the networking session, please email strivingreaders@education.ohio.gov.
